## International Travel Prize 2018

The Biological and Medicinal Chemistry Sector (BMCS) is pleased to announce that it will be offering a number of Travel Prizes for use in 2018 of up to £1,500 in value to post-graduate students currently enrolled in research programmes (PhD or Masters) in UK institutions. The purpose of the Travel Prizes is to support the attendance of the student at an international scientific meeting of their choice, in the area of organic, biological or medicinal chemistry, through funding wholly, or in part, of registration, accommodation and travel costs. The Travel Prizes will be awarded on a competitive basis to students who complete the application process and are subsequently selected by the BMCS committee. Successful applicants will be expected to present their work, in either oral or poster form, at the meeting for which the Travel Prize has been awarded, or at an appropriate RSC-BMCS organised meeting. Travel Prizes should be taken up in 2018, and to that end applications should be submitted to the BMCS by 17th November 2017. Successful applicants will be notified by 12th January 2018.

Submissions will only be accepted by use of the application form which can be obtained from the BMCS along with further details.

Successful applicants will also receive a certificate to indicate their winning of one of these prestigious Travel Awards.

Application forms are available from

Dr Andrew C Williams, Hon. Chairman BMCS, via email at [a.c.williams@lilly.com](mailto:a.c.williams@lilly.com),

and should be returned to him, including "BMCS International Travel Prize 2018" in the subject line.
