

RSC-BMCS Hall of Fame and Medal 2019

The BMCS is pleased to announce the 2019 call for nominations for its Hall of Fame and associated medal which recognises chemists for outstanding, sustained, significant contributions to any area of interest to the BMCS including medicinal chemistry, agriscience, bio-organic chemistry, and chemical biology.

Independent nominations may be submitted by e-mail outlining the justification and including the nominee's CV and publication list. Additional **independent** letters of support to reinforce the nomination are strongly encouraged. Nominees should be resident in the UK or continental Europe, or have spent a considerable proportion of their career here. There is no requirement to be an RSC or BMCS member. There are no age restrictions, and nominees may have an academic or industrial background.

Nominations should be submitted by the end of September 2019 and the outcome will be communicated to nominators and nominees by mid-December 2019. Inductees will receive a medal and certificate, and will be invited to give a plenary lecture at an appropriate BMCS organized conference.

For further details, see the full list of requirements and terms and conditions on the RSC website below. Independent nominations should be sent by e-mail to maggi@maggichurchousevents.co.uk from 1st March to 30th September 2019.
